## **Rugby**

Rugby is a game similar to football developed at Rugby School in Rugby, Warwickshire, one of many versions of football played at English public schools in the 19th century.<sup>[1]</sup> The two main types (known as codes) of rugby are rugby league and rugby union. Although rugby league initially used rugby union rules, they are now wholly separate sports.

## **Sumo**

Sumo is a competitive full-contact wrestling sport where a rikishi (wrestler) attempts to force another wrestler out of a circular ring (dohyō) or into touching the ground with anything other than the soles of his feet. The characters 相撲 literally mean "striking one another".

The sport originated in Japan, the only country where it is practiced professionally. It is generally considered a gendai budō (a modern Japanese martial art), but this definition is misleading, as the sport has a history spanning many centuries. Many ancient traditions have been preserved in sumo, and even today the sport includes many ritual elements, such as the use of salt purification, from the days when sumo was used in the Shinto religion. Life as a wrestler is highly regimented, with rules regulated by the Japan Sumo Association. Most sumo wrestlers are required to live in communal sumo training stables, known in Japanese as heya, where all aspects of their daily lives—from meals to their manner of dress—are dictated by strict tradition.

**19<sup>th</sup> ~22<sup>nd</sup> October 2017 in Kemer – Turkey**

## **O-Sport**

O-Sport stands for Original Persian Sports and this nickname has been founded and presented to the world of Sport by the family of Manouchehri .

The multi-skilled technical structure of O-Sport is formed of: Persian arts and games, such as Dooz, slingshot, Ley ley, Alak Dolak, swimming and struggling of Persian tribes. During a process of deep studies and modernization, these Games have become the industry of sport. These sports include Aqua O-Sport (the combination of struggling, swimming and passing through the barriers), Artistic O-Sport (The combination of shooting skills, passing through the barriers with acrobatic skills), Mind O-Sport (the combination of Dooz and others), and Combat O-Sport (the combination of self defense, shooting and martial arts skills ). These competitive techniques and disciplines have been named with the benefit of Persian words and ancient names of Iranian cities.

## **Go**

Go is an abstract strategy board game for two players, in which the aim is to surround more territory than the opponent.

The game was invented in ancient China more than 2,500 years ago, and is therefore believed to be the oldest board game continuously played today. It was considered one of the four essential arts of the cultured aristocratic Chinese scholar caste in antiquity. The earliest written reference to the game is generally recognized as the historical annal Zuo Zhuan .

Despite its relatively simple rules, Go is very complex, even more so than chess, and possesses more possibilities than the total number of atoms in the visible universe. Compared to chess, Go has both a larger board with more scope for play and longer games, and, on average, many more alternatives to consider per move.

**19<sup>th</sup> ~22<sup>nd</sup> October 2017 in Kemer – Turkey**

## **Darts**

Darts is a form of throwing sport in which small missiles are thrown at a circular dartboard fixed to a wall.<sup>[2]</sup> Though various boards and rules have been used in the past, the term "darts" usually now refers to a standardised game involving a specific board design and set of rules. As well as being a professional competitive sport, darts is a traditional pub game, commonly played in Britain and Ireland, across the Commonwealth, the Netherlands, Germany, the Scandinavian countries, the United States, and elsewhere.

**19<sup>th</sup> ~22<sup>nd</sup> October 2017 in Kemer – Turkey**

## **Table Tennis**

**Table tennis**, also known as **ping pong**, is a sport in which two or four players hit a lightweight ball back and forth across a table using a small bat. The game takes place on a hard table divided by a net. Except for the initial serve, the rules are generally as follows: players must allow a ball played toward them to bounce one time on their side of the table, and must return it so that it bounces on the opposite side at least once. A point is scored when a player fails to return the ball within the rules. Play is fast and demands quick reactions. Spinning the ball alters its trajectory and limits an opponent's options, giving the hitter a great advantage.

## Chess

**Chess** is a two-player [strategy board game](#) played on a [chessboard](#), a checkered gameboard with 64 squares arranged in an 8x8 grid.<sup>[1]</sup> The game is played by millions of people worldwide.

Each player begins with 16 [pieces](#): one [king](#), one [queen](#), two [rooks](#), two [knights](#), two [bishops](#), and eight [pawns](#). Each of the six piece types [moves](#) differently, with the most powerful being the queen and the least powerful the pawn. The objective is to [checkmate](#)<sup>[note 1]</sup> the opponent's king by placing it under an inescapable threat of capture. To this end, a player's pieces are used to attack and capture the opponent's pieces, while supporting each other. In addition to checkmate, the game can be won by [voluntary resignation](#) of the opponent, which typically occurs when too much [material](#) is lost or checkmate appears unavoidable. There are also several ways a game can end in a [draw](#).

Chess is believed to have originated in [India](#) sometime before the 7th century. The game was derived from the Indian game [chaturanga](#), which is also the likely ancestor of the Eastern strategy games [xiangqi](#), [janggi](#), and [shogi](#). (A minority view holds that chess originated in China.) The pieces assumed their current powers in Spain in the late 15th century; the rules were finally standardized in the 19th century.
